

Is There LOST CASH Hidden in Your Receivables?

Do you know the value of your Zero Balance Receivables?

Are you sitting on significant recoverable cash?

Can you afford to simply throw away the ability to recapture cash on written-off receivables?

Revenue Cycle Management: RECEIVABLES REVIEW

Introduction

Consider the three typical outcomes of claim resolution: claim paid correctly, claim paid incorrectly, or claim denied.

Payers underpay provider claims by millions of dollars every year, yet the remainder is never recovered.

Phoenix can help your hospital discover cash in dead receivables by evaluating written-off receivables and providing solid recommendations to recover significant underpayments for each payer.

Phoenix Health Systems, a long-time leader in revenue cycle management consulting services, will review, evaluate, verify and recommend solutions to recover cash on the underpaid claims buried in your zero balance receivables. Our Receivables Review service has assisted in recovering millions of dollars of “lost cash” for hospitals across the country.

Highlights

- *Specific payer evaluation of underpayments*
- *Identification and verification of payment variances*
- *Recommendations to recover significant cash*
- *Opportunity to create additional bottom-line income*

Fixed Pricing

The Receivables Review service is priced at \$9,925 and includes a one-week study and evaluation of your zero balance receivables with subsequent recommendations for significant cash recovery. (Out-of-pocket expenses for an on-site visit are billed separately.)
